

Internship Program Helps Students Forge a Career Path in Networking

The Vietnam Internship Program allows students to apply their Networking Academy skills and hands-on experience in a professional work environment.

“As a result of the Vietnam Internship Program, I have completed my Cisco CCIP® certification and received a job offer with DTS Corporation.”

Duc Thien Nguyen,
Student from Hanoi University of
Technology

“The program was an excellent opportunity to learn from the experts in a professional working environment.”

Thanh Thuy Nguyen,
Student from Hanoi
University of Technology

The Vietnam Internship Program resulted from a collaborative effort between the Cisco® Vietnam engineering team, led by Mr. Cuong Quoc Troung, Cisco channel partners CT-IN Telecom & IT Inc. and DTS Communication Technologies Corp, and networking academies in Vietnam. The program allows Cisco Networking Academy® students to gain practical work experience through six to twelve month internships.

Final year students were selected from Hanoi University of Technology and HUT Genetic to participate in the program. The interns worked with a wide range of technologies, and were involved in key projects for Cisco and their partners.

Mr. Tan Bui, marketing manager from DTS, was pleased to see the excellent qualifications of the

students who participated in the internship program. “I felt that the Cisco Networking Academy students demonstrated excellent base knowledge and skills,” says Mr. Bui, “and it was pleasing to see the energy and ambition of these young professionals starting out on their career path. After their internship experience, I think we shall see these excellent young engineers really be influential supporters of the networking industry and help with the long-term transformation of Vietnam.”
